Backend Node.js, Deno, Express.js, Laravel, Wordpress, Web Sockets, FastAPI	Databases & Data Access PostgreSQL, MySQL, Redis, MongoDB, Drizzle ORM, Prisma
Tools & Integrations Git, Docker, Webhooks, Vercel, AWS, Github Actions	

Projects

- KOLT & Business Websites [🔗](#)**
Contributed to the maintenance and improvement of multiple business websites, including:
- KOLT
 - KOLT Realty
 - KOLT Management
 - KOLT Investments
 - Additional company websites

Worked on website customizations, UI updates, bug fixes, and functionality improvements based on business requirements.

Qaderoon , *Inclusive Recruitment Platform*

- Independently developed and delivered a full-scale recruitment platform serving **5,000+ users across 450+ organizations**, with **10,000+ job applications submitted** and a smooth, reliable user experience.
- Built backend functionality using Next.js Server Actions and Route Handlers, PostgreSQL, and Drizzle ORM.
- Implemented **JWT-based** authentication, role-based access control (**RBAC**), secure **password hashing**, and **Cloudflare Turnstile** bot protection.
- Developed administrative analytics, visit tracking, filtered data tables, and **Excel reporting**.
- Implemented Arabic/English internationalization with full RTL/LTR support.

Mmbr Alfekr , *Pharmacy Education Platform*

- Designed and developed the platform's user-facing interface for a Saudi pharmacy education website.
- Built a custom WordPress plugin to power platform functionality and expose backend capabilities through a REST API.
- Developed a custom React admin dashboard and integrated it with the plugin to manage platform operations.

Mega Store , *E-commerce Demo Application*

- Built a full-stack e-commerce demo using Next.js App Router and TypeScript, featuring product browsing, authentication, cart management, checkout, and an admin interface.
- Designed relational database models using Prisma and PostgreSQL to manage products, categories, users, orders, and wishlists.
- Integrated Stripe Checkout with a demo payment confirmation flow to demonstrate checkout and order processing.
- Implemented server-side data operations, input validation with Zod, and filtering, sorting, and cursor-based pagination.

Nqrat , *Freelance Marketplace*

- Implemented PayPal and MyFatoorah payment integrations from scratch.
- Resolved payment processing bugs and improved payment reliability.
- Fixed issues and enhanced functionality across the admin dashboard.
- Maintained and improved existing platform features.

Ektml.com , *Digital Services Platform*

- Maintained and refactored a live digital-services platform, improving existing functionality and maintainability.
- Developed user profiles, a merchant affiliate marketing system, and a marketplace for ready-made software projects.
- Worked across backend functionality, database operations, and production deployment.
